

## Take a beat then cross the street!

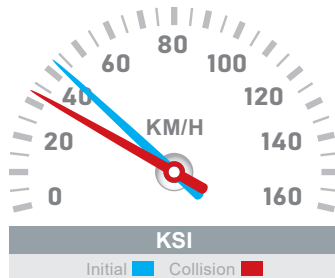

**88%** of serious pedestrian crashes happen when crossing.

Crossing where drivers do not expect you is extra risky!

Car drivers may be surprised by people crossing at 'unexpected' places and may not react in time.

**55-75%** of the crashes happen away from an intersection.

**55%** of crashes happen where there is no designated crossing.

**781** injured pedestrians, among them  
**358** killed or severely injured pedestrians
