

Slow down!

Be on the lookout for pedestrians

Data source: GIDAS

There might be a **pedestrian**, who wants to cross the street, that **you do not see**, and **does not see you** either.

Crossing right with sight obstruction

589 injured pedestrians

among them

290 killed or severely injured pedestrians

Share of insured pedestrians relative to the total numbers in car-to-pedestrian crashes

15%

Share of KSI* pedestrians relative to the total numbers in car-to-pedestrian crashes

20%

Crossing right with sight obstruction

KSI: killed or seriously injured.
